Equipment-Based Pilates, Mat Pilates, & AntiGravity®

AntiGravity® is a challenging aerial fitness workout suitable for all fitness levels. It features a sequence of movements designed to enhance flexibility, mobility, and balance, while also promoting muscle relaxation and building strength. Although not all exercises involve inversions, you will enjoy plenty of hang time between different moves.

Pilates is a physical fitness system that focuses on core stability, posture, flexibility, and overall body awareness. The primary goal of Pilates is to strengthen and balance the entire body, with a particular focus on building the “powerhouse,” which includes the abdominal muscles, lower back, hips, and glutes.

The two principal categories of Pilates—mat Pilates and equipment Pilates—both adhere to these foundational principles but use different approaches and tools to achieve results.

Mat Pilates:

- Pilates Flow
- Pilates Tone & Sculpt
- Pilates Sculpt & Flow
- Pilates Build & Burn
- Pilates Props

Equipment-Based Pilates (EBP):

**For your safety, a one-on-one introductory Pilates session (\$75) is required before you can enroll in EBP classes.*

- Level 1, 2, 3, or Multi-Level
- Pilates Fitness
- Active Aging
- Bone Health
- 60+ Equipment-Based Pilates
- Chair EBP
